SAG Background

SAG Creation

- ▶ The Illinois Energy Efficiency Stakeholder Advisory Group (SAG) was **created in 2008** by direction of the Illinois Commerce Commission (ICC), when the first electric EE Plans were approved by the ICC
- ▶ SAG is an **advisory body** that focuses on:
 - ▶ Educating the IL stakeholder community on EE programs and a variety of EE issues
 - ▶ Building trust among parties with various interests
 - ▶ Providing a forum for narrowing differences among parties
 - ▶ Engaging in constructive discussion; inviting parties to offer constructive approaches and solutions to issues
 - ▶ Building consensus agreement on policy and technical issues, in an effort to reduce or avoid future litigation

SAG Participation

- ▶ Large Group SAG, Working Groups, and Subcommittee meetings are open to all interested parties, unless a topic may present a financial conflict of interest

SAG Guiding Principles

The following guiding principles are intended to support collaborative discussion:

1. ***Build trust and collaboration.*** SAG meetings are intended to build trust and collaborative working relationships among participants.
2. ***Educate and inform.*** SAG meetings are intended to educate and inform participants on specific topics. Parties are encouraged to ask questions and request follow-up if additional information would be informative to the group.
3. ***Offer constructive approaches and solutions.*** Parties are encouraged to raise issues and voice concerns when they don't support specific initiatives discussed at the SAG, including offering constructive approaches and solutions where possible.
4. ***Focus on the merits.*** SAG discussions should focus on the merits of an issue, rather than assertions of prior litigation positions that have already been resolved, unless there is a compelling reason/rationale to revisit the issue.
5. ***Ensure all interests are represented.*** Participation in SAG is open to all interested participants to encourage the discussion of a broad variety of interests, unless a topic presents a financial conflict of interest.
6. ***Participate in consensus discussions in good faith.*** Topics addressed in SAG may involve consensus decision-making. SAG participants will participate in consensus discussions in good faith, by engaging in respectful dialogue and listening to differing opinions of various parties.
