SAG Background

SAG Creation

- ▶ The Illinois Energy Efficiency Stakeholder Advisory Group (SAG) was **created in 2008** by direction of the Illinois Commerce Commission (ICC), when the first electric Energy Efficiency (EE) Plans were approved by the ICC
- ▶ SAG is an **advisory body** that focuses on:
 - ❖ Educating the IL stakeholder community on EE programs and a variety of EE issues
 - ❖ Building trust among parties with various interests
 - ❖ Providing a forum for narrowing differences amongst parties
 - ❖ Engaging in constructive discussion; inviting parties to offer approaches and solutions to issues
 - ❖ Building consensus agreement on EE policy and technical issues, in an effort to reduce or avoid future litigation

Policy Manual Definition of SAG

The SAG is an advisory body, not a decision-making body. It is a forum that allows parties to express different opinions, better understand the opinions of others, and foster collaboration and consensus, where possible and appropriate.

See Section 3.3, Advisory Role:

[Illinois Energy Efficiency Policy Manual Version 3.0 \(Final\)](#)

SAG Participation

- ▶ SAG meetings are **open to all interested parties** to encourage discussions by stakeholders representing a variety of interests
 - ❖ Opportunity for IL utilities and interested stakeholders to work together to discuss progress towards meeting EE portfolio goals, and policy and technical issues related to EE
- ▶ Who participates in SAG?
 - ❖ IL utilities-> Ameren Illinois, ComEd, Nicor Gas, Peoples Gas & North Shore Gas
 - ❖ Advocates representing a variety of interests-> consumer, environmental, low income, and ratepayer
 - ❖ Community-based organizations and Community Action Agencies
 - ❖ EE implementation contractors
 - ❖ Illinois Commerce Commission Staff
 - ❖ Independent evaluators of EE programs

Defining SAG Groups

▶ Large Group SAG

- ❖ Generally covers broad EE topics of interest
- ❖ Prioritizes topics required by the Policy Manual; directives to SAG from the ICC; and ICC-approved stipulated agreements between utilities and non-financially interested parties
- ❖ Other topics related to EE portfolio planning, design, implementation, and evaluation are scheduled as time and resources permit

▶ SAG Working Groups

- ❖ Established to discuss short-term issues that need resolution
- ❖ May be ongoing, or may be time-limited

▶ SAG Subcommittees

- ❖ Established for necessary issue-specific topics
- ❖ Generally longer-term discussions than Working Groups
- ❖ Subcommittees may be ongoing, or may be time-limited

SAG Guiding Principles

The following guiding principles are intended to support collaborative discussion:

1 - Build trust and collaboration. SAG meetings are intended to build trust and collaborative working relationships among participants.

2 - Educate and inform. SAG meetings are intended to educate and inform participants on specific topics. Parties are encouraged to ask questions and request follow-up if additional information would be informative to the group.

3- Offer constructive approaches and solutions. Parties are encouraged to raise issues and voice concerns when they don't support specific initiatives discussed at the SAG, including offering constructive approaches and solutions where possible.

SAG Guiding Principles (cont.)

4 - Focus on the merits. SAG discussions should focus on the merits of an issue, rather than assertions of prior litigation positions that have already been resolved, unless there is a compelling reason/rationale to revisit the issue.

5 - Ensure all interests are represented. Participation in SAG is open to all interested participants to encourage the discussion of a broad variety of interests, unless a topic presents a financial conflict of interest.

6 - Participate in consensus discussions in good faith. Topics addressed in SAG may involve consensus decision-making. SAG participants will participate in consensus discussions in good faith, by engaging in respectful dialogue and listening to differing opinions of various parties.

 - ❖ IL-TRM is updated annually, beginning each year with prioritization of proposed new measures or measure changes
 - ❖ IL-TRM Version 13.0 will be finalized by Oct. 1, 2024
 - ❖ To join the IL-TRM distribution list, reach out to VEIC: iltrmadministrator@veic.org

 - ❖ Updating SAG website with IL-TRM deliverables
 - ❖ Participating in TRM meetings (facilitated by [VEIC](#))
 - ❖ Participating in IL-TRM Income Qualified Working Group (facilitated by [MUSE Community + Design](#))

Coordination with IQ EE Committees

- ▶ **Income Qualified EE Committees (or Low Income Energy Efficiency Advisory Committee, LIEEAC)**
 - ❖ As described in the Climate and Equitable Jobs Act (CEJA), the LIEEAC’s purpose is to “directly inform the design, implementation, and evaluation of the low income and public housing energy efficiency programs”
 - ❖ Separate from SAG
 - ❖ SAG Facilitator plans to coordinate with IQ Committee representatives on 2024 EE topics that may be of interest to both SAG and IQ North or IQ South Committee participants, including holding joint meetings, as needed

2024 SAG Activities

2024 SAG Portfolio Planning Process

▶ In 2024, SAG will focus on the Portfolio Planning Process

- ❖ This is a consensus-seeking process to discuss foundational issues to EE Portfolio Plan development with IL utilities
 - Utilities are developing EE Plans for the next 4-year cycle -> 2026-2029
 - Utilities are required by statute to file individual EE Plans with the ICC for approval by March 1, 2025
- ❖ SAG Planning Process occurs once every 4 years
 - The first Planning Process was held in 2016
- ❖ Large Group SAG meetings will focus on Planning Process
 - SAG Subcommittee and SAG Working Groups will focus on current EE portfolio topics that need discussion
- ❖ Dedicated page on SAG website:
<https://www.ilsag.info/meetings/portfolio-planning-process/>

Policy Manual Describes the Process

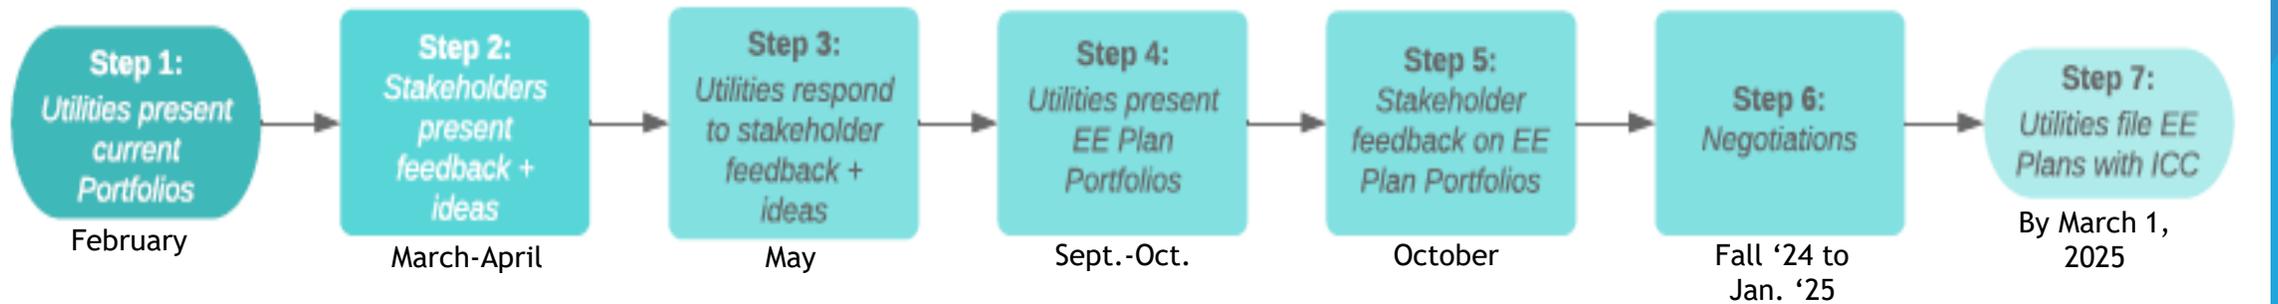

*Program Administrators shall work in a cooperative and iterative manner with SAG participants to develop the next multi-year Plan. Such cooperation includes discussion of foundational issues to Plan development; including budgets, Portfolio objectives, Program ideas, and Program design. Program Administrators and SAG shall seek to develop and communicate such foundational assumptions in a manner that supports efficient and timely modeling of proposals for a comprehensive Plan. **A primary purpose of these cooperative and iterative discussions is to reduce the number of non-consensus issues and litigation associated with the applicable Plan dockets.***

See Section 3.9, SAG Review, Draft Portfolio Outlines:

[Illinois Energy Efficiency Policy Manual Version 3.0 \(Final\)](#)

Planning Process Timeline

- ▶ **January to October 2024:** Monthly Large Group SAG meetings
- ▶ **September 2024 to January 2025:** Negotiation meetings with individual utilities and non-financially interested stakeholders
- ▶ **By January 31, 2025:** Finalize negotiations and 2026-2029 EE Plan stipulations
- ▶ **By March 1, 2025:** IL utilities file individual 2026-2029 EE Plans with the ICC for approval

Participation

- ▶ Majority of Large Group SAG meetings during the Planning Process will be open to all interested parties, to encourage discussion by stakeholders representing a variety of interests
 - ❖ There are limited situations where SAG participation needs to be closed to utilities and non-financially interested parties only - when a topic or process presents a financial conflict of interest
 - ❖ In those situations, participation by a financially interested party could have adverse consequences, such as:
 1. Hindering complete and frank discussions, and / or
 2. A participant may gain an undue advantage or benefit by participating
 - ❖ Non-financially interested party = a company or organization that does not receive funding from an Illinois utility
 - ❖ Financially interested party = a company or organization that receives funding from an Illinois utility

Participation (cont.)

- ▶ Examples of conflict situations:
 - ❖ Discussing confidential or proprietary information
 - ❖ Reviewing and discussing a draft Request for Proposals
 - ❖ Discussing a vendor performance issue
 - ❖ EE Plan negotiations with individual utilities

- ▶ SAG “Financial Conflict of Interest Policy” is in the SAG Process Guidance Document, and referenced in annual SAG Plans
 - ❖ SAG Facilitator identifies conflict situations before a meeting
 - ❖ Participants who have a financial interest are asked to recuse themselves from participating

Proposed Update to SAG Conflicts Policy

- ▶ During the Policy Manual update process in 2022/2023, concerns were raised about how to include community-based organizations (CBOs) in SAG meetings or processes that involve a conflict
- ▶ To address concerns, the SAG Financial Conflict of Interest Policy has DRAFT edits available for review
- ▶ If consensus is reached, the edits would allow representative(s) of CBOs to participate in “non-financially interested party” discussions at SAG in the following scenarios:
 - ❖ A CBO that receives no utility funding
 - ❖ A CBO that receives a Market Development Initiative grant
 - ❖ A CBO that serves as a Program Ally or Trade Ally
 - ❖ A CBO that works with an IL utility in a marketing, outreach or implementation capacity with a contract totaling less than \$100,000 annually

Proposed Update to SAG Conflicts Policy (cont.)

- ▶ The draft policy is available for review: [SAG Financial Conflict of Interest Policy Update \(Draft 1/10/2024\)](#)
- ▶ Comments are due by Thursday, February 1
 - ❖ Comments should be submitted to the SAG Facilitator (Celia@CeliaJohnsonConsulting.com)
