

SAG Policy Manual Subcommittee Interactive Effects Policy – Follow-up from November Meeting

Original Policy Proposal Submitted by Joint Stakeholders (June 2022): [Interactions Between Electrification and Other Efficiency Measures \(Joint Stakeholders**\)](#)

Compromise Policy Language Discussed During Nov. 2022 Subcommittee Meeting:

“When a project includes both electrification and energy efficiency upgrades for the same end use, the entire project savings from that end use can be treated as electrification savings and count towards the statutory electrification savings limits.”

Questions to Discuss December 14th:

1. Is everyone in agreement with the compromise policy language?
2. Is everyone in agreement this policy can be used for 2022?
