

Nicor Gas Energy Efficiency Program - Plan Year 2020

APPENDIX B

Quarterly Report: Fourth Quarter (October 1, 2020 - December 31, 2020)

Response to Evaluators' Recommendations

Program	PY	Recommendation	Action Completion Date	Action(s) Taken
MF		Guidehouse recommends claiming savings for only one showerhead per bathroom in the absence of any additional data indicating presence of multiple showerheads 2019 per bathroom.	11/13/2020	Nicor Gas agrees with claiming savings for only one showerhead per bathroom in the absence of any additional data indicating presence of multiple showerheads per bathroom. Our DI team has made updates to their validation process to catch these discrepancies in the future.
IQ-SF-IHWAP		Guidehouse recommends the implementer ensure Nicor Gas tracking data accurately reflects R values of insulation and matches ComEd tracking data for 2019 joint projects.	12/30/2020	There was an error in the Nicor data file due to a mapping issue, the implementer ensure Nicor Gas tracking data accurately reflects R values of insulation and matches ComEd tracking data for joint projects.
