Re: Nicor Gas 2022 Adjustable Savings Goals Evaluation Review

During January 2022, Guidehouse staff worked with Nicor Gas to review their updates to the 2022-25 Adjustable Savings Goals spreadsheet to reflect Illinois TRM Version 10.0. In our review, we found three measures with savings calculations or inputs that did not match Illinois TRM Version 10.0 and we recommended Nicor Gas make revisions. We also suggested a modification to the template to Nicor Gas to preserve the net savings goals calculated for their filed energy efficiency plan. Nicor Gas provided a revised version of the Adjustable Savings Goals spreadsheet on January 31, 2022 with our recommended updates completed.

We confirm that the updates to the Nicor Gas 2022-25 Adjustable Savings Goals spreadsheet for TRM v10.0 were implemented correctly.
