Business Program	<u>08</u>
Residential Program	<u>20</u>
Income Eligible Program	<u>23</u>
Marketing & Outreach	<u>31</u>

The Peoples Gas Light and Coke Company and North Shore Gas Company provide these qualitative Quarterly Reports containing a program brief on Q3 and cumulative of Program Year 2022 activities. These reports are accompanied by the quantitative reports, which detail the program savings, costs, and results. These reports are provided pursuant to Section 6.6 of the Illinois Energy Efficiency Policy Manual Version 2.0 (effective January 1, 2020).

Data presented in this document is based on preliminary results and is subject to revision and evaluation adjustments.

Q3 Environmental and Community Impact

ENVIRONMENTAL IMPACT

44,260

Acres of trees planted

37,399

SAVINGS

SPEND

As of Q3 2022, the Peoples Gas portfolio achieved 71% of the savings goal of 8,840,915 therms, spent 70% of the \$23,725,279 program budget, and spent 69% of the \$27,832,571 portfolio budget.

- Public Sector Program achieved 218% of the savings goal, spending 91% of the budget.
- Business Program achieved 55% of the savings goal, spending 44% of the budget.
- Income Eligible Program achieved 87% of the savings goal, spending 81% of the budget.
- Residential Program achieved 50% of the savings goal, spending 62% of the budget.

*Includes \$120,019 in MDI Research

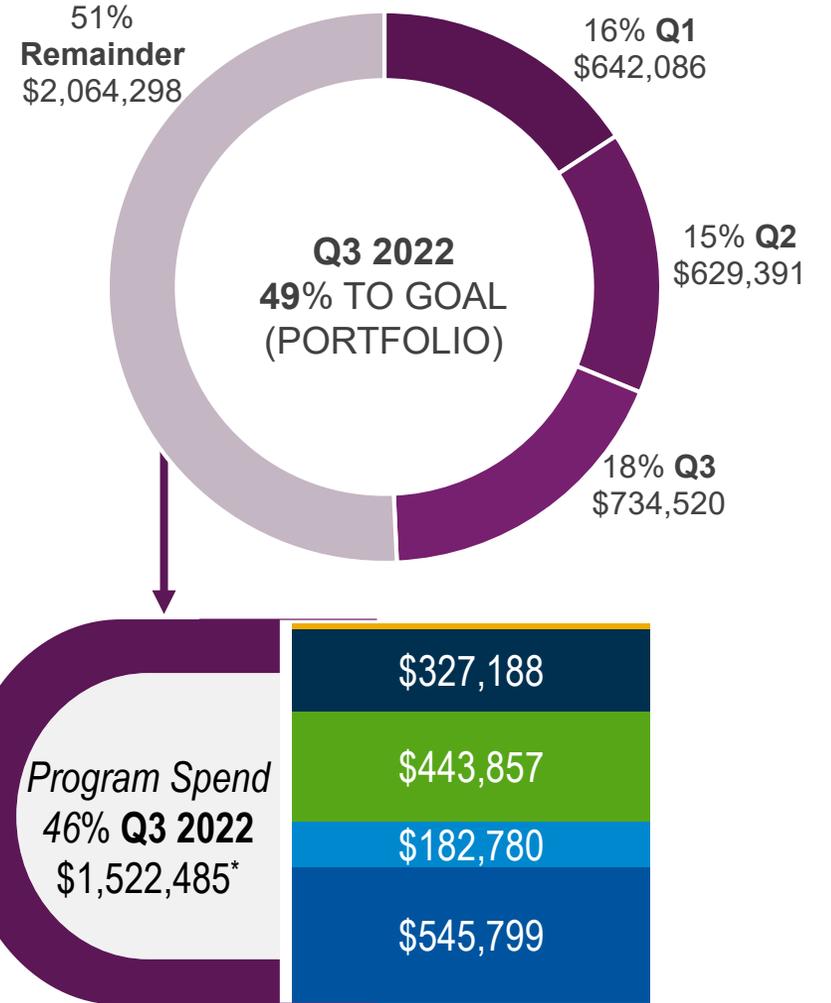

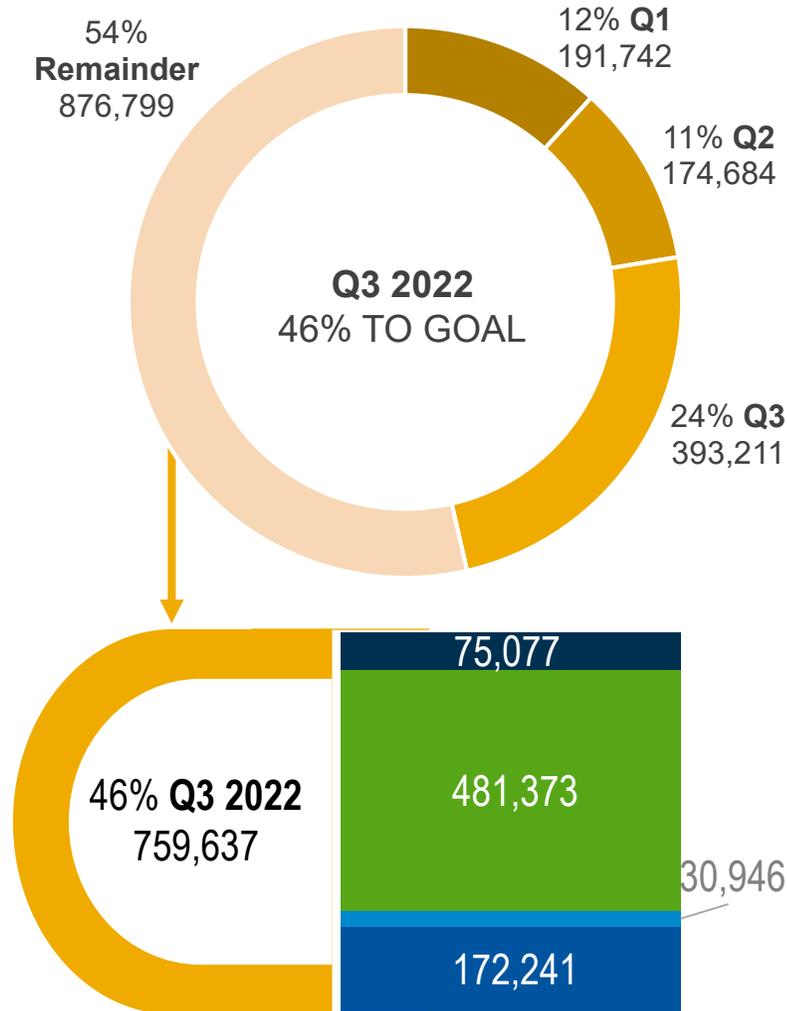

*Program spend does not include portfolio costs

SAVINGS

SPEND

As of Q3 2022, the North Shore Gas portfolio achieved 46% of the savings goal of 1,636,436 therms, spent 46% of the \$3,327,561 program budget, and spent 49% of the \$4,070,296 portfolio budget.

- Public Sector Program achieved 60% of the savings goal, spending 96% of the budget.
- Business Program achieved 57% of the savings goal, spending 36% of the budget.
- Income Eligible Program achieved 26% of the savings goal, spending 25% of the budget.
- Residential Program achieved 32% of the savings goal, spending 56% of the budget.

*Includes \$22,861 in MDI Research
*Program spend does not include portfolio costs

Business Programs

C&I, Small Business, and Public Sector

Commercial and Industrial: Peoples Gas

HIGHLIGHTS

Performance

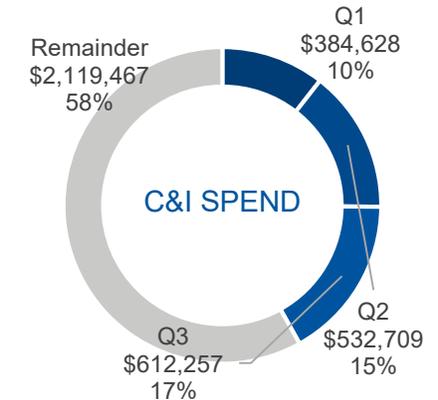

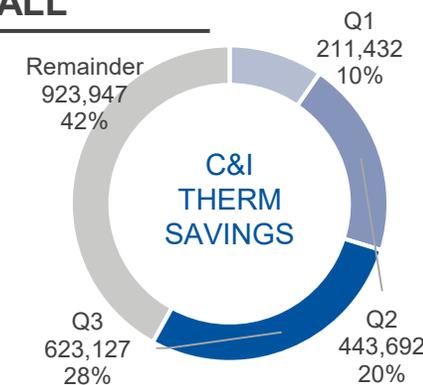

- ✓ Continuing to see strong performance, pipeline, and cost-effectiveness
- ✓ Private Sector Business Programs have 104% of the savings booked including pipeline and forecast, achieving 188% of the savings goal at 152% of the budget
- ✓ Cost-effectiveness enabling additional gas optimization studies

Customer Engagement

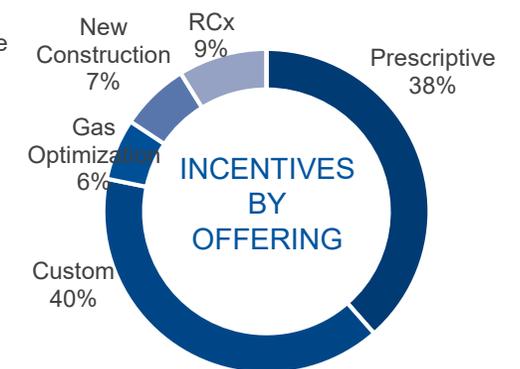

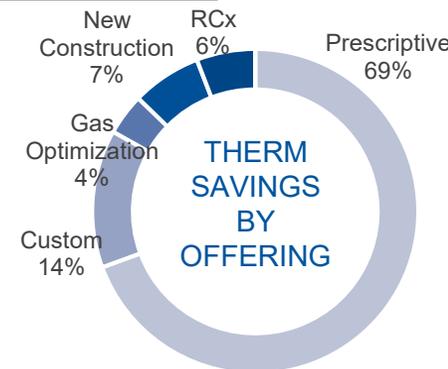

- ✓ Customer Highlights: Ogden Avenue Materials and Jackson Park Hospital completed their first projects with the program, Roseland Community Hospital completed their first project in five years, The University of Chicago gas optimization studies resulted in new projects, Mount Sinai Hospital completed a large steam trap replacement project, and Lurie Children's Hospital completed a large boiler tune-up project

RESULTS

OVERALL

OFFERING

Commercial and Industrial: North Shore Gas

HIGHLIGHTS

Performance

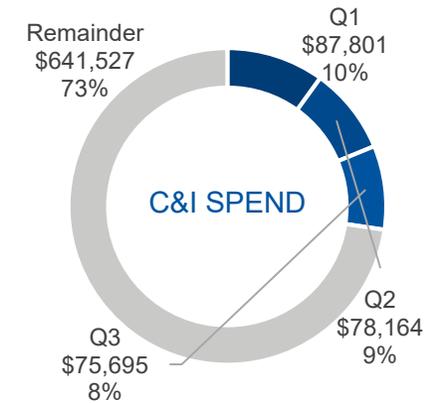

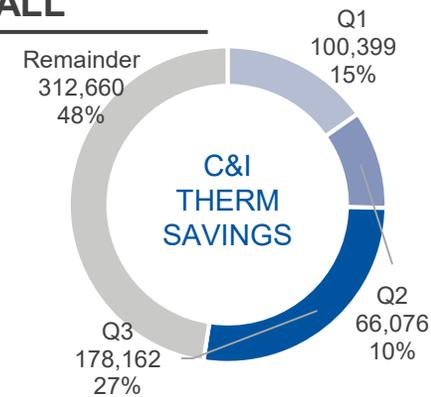

- ✓ Continuing to see strong performance, pipeline, and cost-effectiveness
- ✓ Private Sector Business Programs have 87% of the savings booked including pipeline and forecast achieving 169% of the savings goal at 104% of the budget
- ✓ Cost-effectiveness enabling additional gas optimization studies

Customer Engagement

- ✓ Great Lakes Naval Base completed gas optimization studies and is completing domestic hot water heater and dishwasher replacements in the barracks
- ✓ Advocate Condell Medical completed steam traps and boiler tune-ups and is completing more gas optimization studies to prepare for implementation

RESULTS

OVERALL

OFFERING

C&I Spotlights: U.S. Navy and Veterans Hospital

Proactive and regular program outreach helped kick off participation in 2021

- ✓ The Great Lakes Naval Base
 - Started their first project in 2021 after multiple years of program outreach effort
 - So far in 2022, three projects have been completed
 - Additional projects planned including a gas optimization study, hot water heater, and steam trap replacements
- ✓ James A. Lovell VA Hospital
 - Two projects so far in 2022

Small and Midsize Business: Peoples Gas

HIGHLIGHTS

Performance

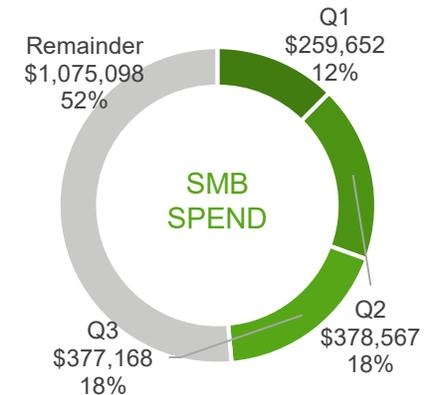

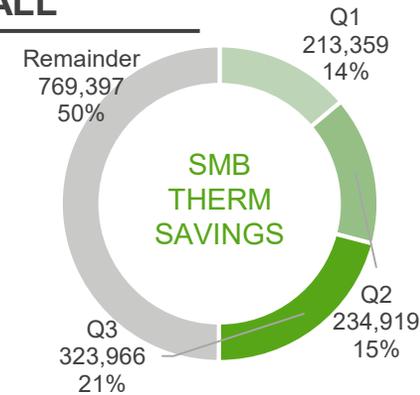

- ✓ Continuing to see strong performance, pipeline, and cost-effectiveness
- ✓ Trade Allies continue to actively participate and bring in new and returning customers

Customer Engagement

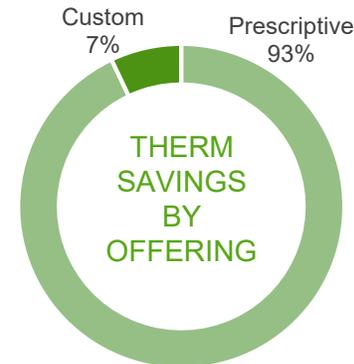

- ✓ Q3 project examples include:
 - Columbia College completed boiler tune-ups at ten buildings
 - Marc Realty completed a steam trap testing and replacement project and anticipating future projects at additional buildings

RESULTS

OVERALL

OFFERING

Small and Midsize Business: North Shore Gas

HIGHLIGHTS

Performance

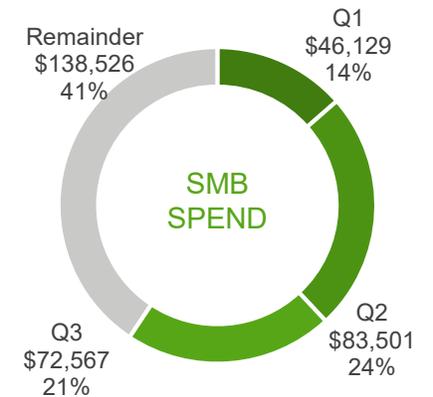

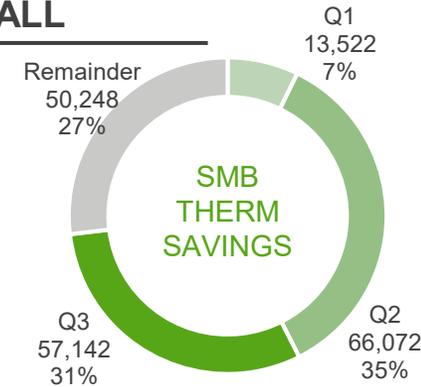

- ✓ Continuing to see strong performance, pipeline, and cost-effectiveness
- ✓ Trade Allies continue to actively participate and bring in new and returning customers

Customer Engagement

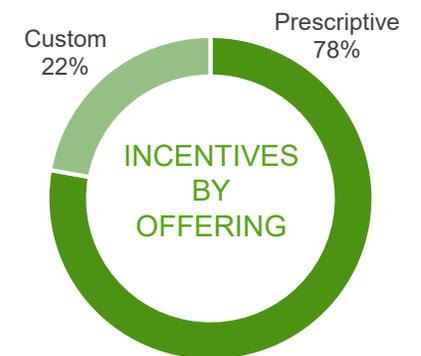

- ✓ Q3 project example:
 - Northfield Block completed a custom process pipe insulation project
- Retail small businesses accounted for 74% of the total savings, with Manufacturing, Churches, and Offices rounding out the top four with another 18% in savings

RESULTS

OVERALL

OFFERING

Public Sector: Peoples Gas

HIGHLIGHTS

Performance

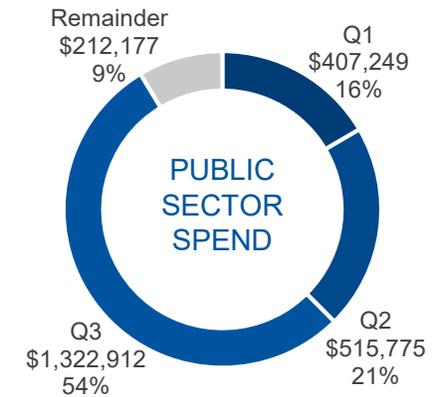

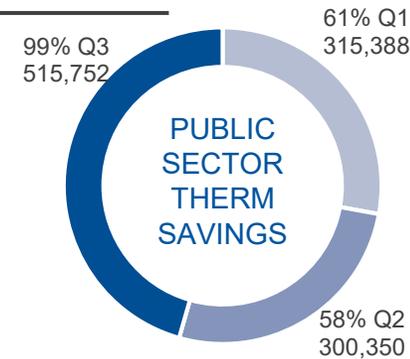

- ✓ Continuing to see strong performance is on target to exceed both savings and spend goals with a very strong and cost-effective pipeline
- ✓ 242% of the savings booked including pipeline, forecasting to achieve 243% of the savings goal at 117% of the budget

Customer Engagement

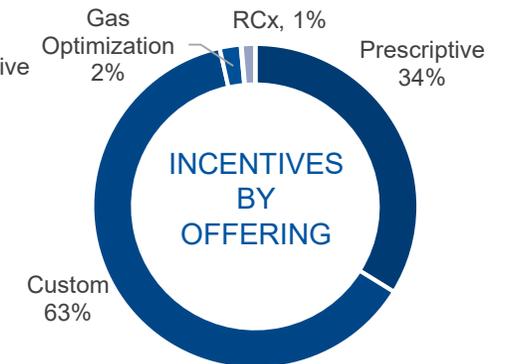

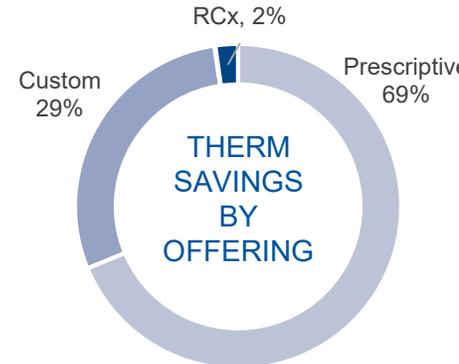

- ✓ Customer Highlights: Within a 24-hour period, Cook County Jail completed a large pipe and valve insulation and steam trap project, resulting in the highest therm savings of any single facility in 2022
- ✓ Cook County, CTA, City of Chicago, and Chicago Public Schools account for 84% of the savings and 90% of the spend

RESULTS

OVERALL

OFFERING

Public Sector: North Shore Gas

HIGHLIGHTS

Performance

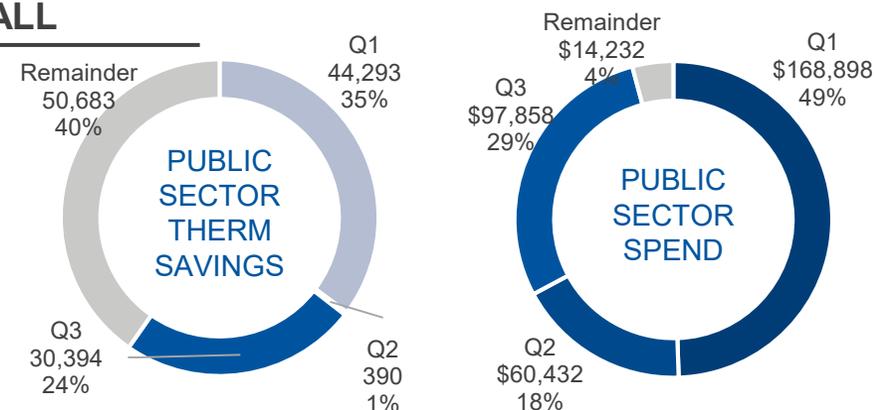

- ✓ Continuing to see strong performance is on target to exceed both savings and spend goals
- ✓ 87% of the savings booked with pipeline and forecast achieving 166% of the savings goal at 178% of the budget

Customer Engagement

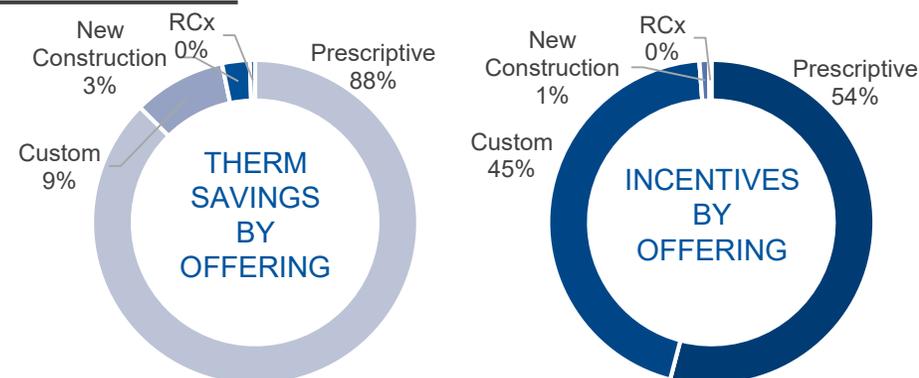

- ✓ North Shore Gas continues to see strong interest from school districts with projects being completed by North Shore School District, Waukegan School District, and a new construction school project in Vernon Hills
- ✓ K-12 Schools account for 88% of the savings and 87% of the spend to date
- ✓ Other participants include the North Shore Gas Sanitary District

RESULTS

OVERALL

OFFERING

Public Sector Spotlight: Cook County

Partnership with Peoples Gas helps Cook County achieve their 2030 Clean Energy Plan goals

- ✓ Cook County completed projects saving over 900,000 therms across multiple buildings
- ✓ County Board President Toni Preckwinkle and the Cook County Bureau of Asset Management held a press conference on September 30th to recognize the partnership and successful project completion
- ✓ The therm savings is equivalent to the energy usage of 600 homes for one year

Picture Courtesy of [Cook County](#)

Public Sector Spotlight: Cook County Jail

Cook County and Peoples Gas coordination and Trade Ally planning enabled project completion in under 24 hours

- ✓ Cook County Jail recently completed the largest single facility therm savings project in 2022 in under 24 hours
- ✓ Trade Ally planning and coordination enabled completion of pipe insulation, valve insulation, and high-pressure steam trap replacements

NORTH SHORE GAS®
ENERGY EFFICIENCY PROGRAM

ENERGY FORUM
WELCOME

C&I and Public Sector Spotlights: 2022 Energy Forum

Peoples Gas, North Shore Gas, and the Energy Efficiency Program hosted an Energy Forum for C&I and Public Sector customers

- ✓ Topics included:
 - Gas Supply
 - Regulatory
 - Emerging Gas Technology
 - Energy Efficiency Program updates
 - Energy Efficiency Awards presentation
- ✓ Energy Forum rated *excellent* and *very good* by attendees who responded to survey

“I hope the energy program continues and that there will be continued rebates for projects. We are just scratching the surface for energy savings.”

-Event Attendee

R&D Spotlight: The Art Institute of Chicago

Research and Development project being piloted at The Art Institute

- ✓ The Art Institute continues to complete projects and be a collaborator in trying new technologies
- ✓ They agreed to participate in an AI machine-learning project to control humidity in their second-floor galleries
- ✓ This project is a successful transition from ideation through the R&D program to realization in C&I Custom
- ✓ Phase 1 was completed in September 2021 for a portion of the galleries and Phase 2 is scheduled to start August 2022

A photograph of a man and a young girl sitting on a couch, interacting with a beagle dog. The man is on the right, wearing a light blue denim jacket over a white t-shirt, and is petting the dog's head. The girl is on the left, wearing a dark blue sweater over a striped shirt, and is holding a small yellow and pink toy. The background is a bright, out-of-focus indoor setting.

Residential and Income Qualified Programs

Residential: Peoples Gas

HIGHLIGHTS

Performance

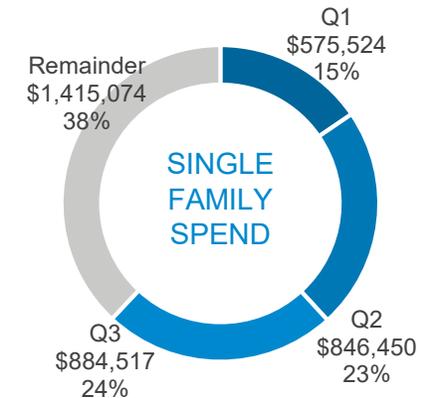

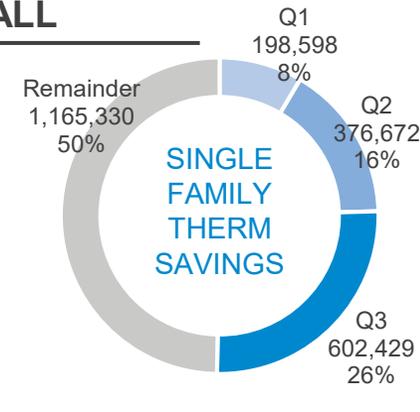

- ✓ Program participation is strong but offering mix varies from forecast impacting the overall cost-effectiveness
 - Assessment participation is stronger than anticipated and running cost-effectively
 - Weatherization participation and interest is running higher than expected, this is good, but runs at a higher dollar per therm
 - Elementary Education Kits interest and participation is also higher than forecast
- ✓ Majority of the savings is from the Multi-Family Prescriptive, Custom, and PTA offering

Offering Highlights

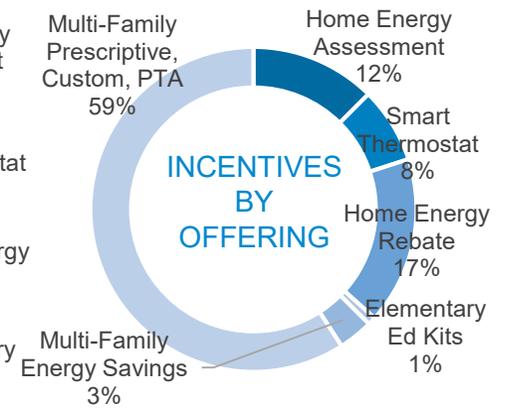

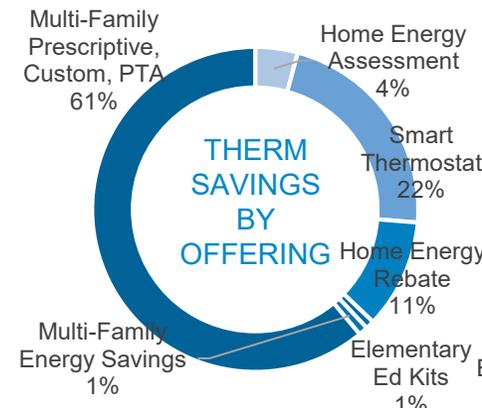

- ✓ Home Energy Rebate: 731 HVAC Rebate and 100 weatherization projects have been completed to date
- ✓ Elementary Education Kits: 134 Kits were distributed in Q3 for a total of 1,119 so far this year
- ✓ Smart Thermostats: 1,611 sold in Q3
- ✓ Multi-Family Energy Savings: 49 building participants to date
- ✓ Prescriptive, Custom, Partner Trade Ally: 134 projects to date

RESULTS

OVERALL

OFFERING

Residential: North Shore Gas

HIGHLIGHTS

Performance

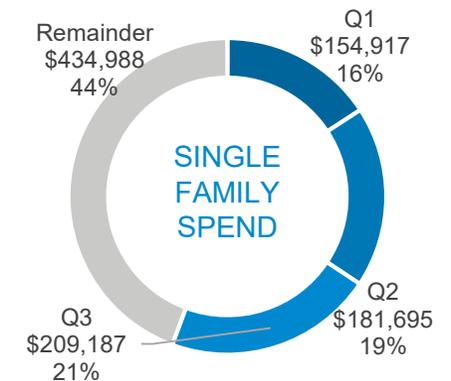

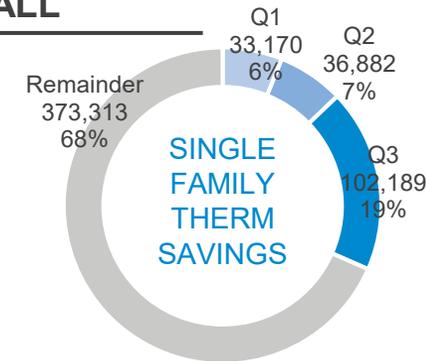

- ✓ Program participation is strong but offering mix varies from forecast impacting the overall cost-effectiveness
 - Assessment participation is stronger than anticipated and running cost-effectively
 - Weatherization participation and interest is going well, but running at a higher dollar per therm than forecast
- ✓ The North Shore Gas Residential Multi-Family offering is very small, with room for a handful of large projects
- ✓ The team is focusing their efforts on outreach to ensure the pipeline is filled to achieve goal and adjusting project mix to adjust cost effectiveness

Offering Highlights

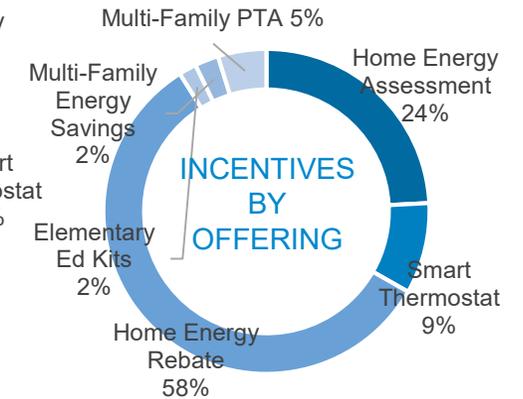

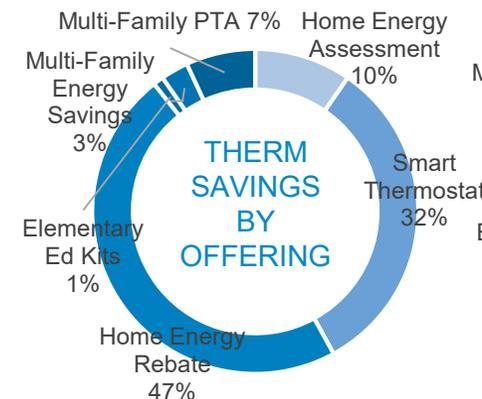

- ✓ Home Energy Rebate: 440 HVAC Rebate and 45 Weatherization projects have been completed to date
- ✓ Elementary Education Kits: 50 Kits were distributed in Q3 for a total of 417 so far this year
- ✓ Prescriptive, Custom, Partner Trade Ally: 8 projects to date
- ✓ Multi-Family Energy Savings: 2 buildings participated to date

RESULTS

OVERALL

OFFERING

Income Qualified Single Family: Peoples Gas

HIGHLIGHTS

Performance

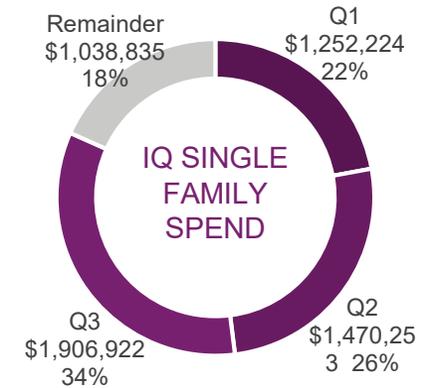

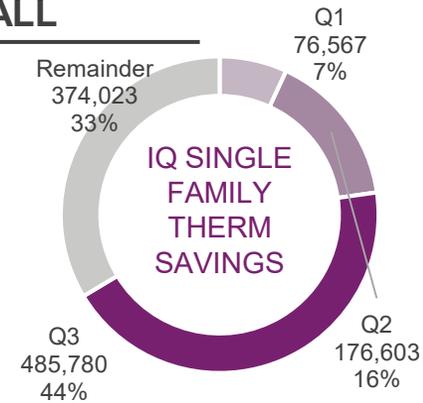

- ✓ Program participation is very strong, with some offerings already achieving their forecast savings, but offering mix varies from forecast impacting the overall cost-effectiveness
 - CEDA is helping IHWAP exceed anticipated participation
 - Weatherization participation is strong, but measure mix is different than anticipated and the program is running more expensive
 - Assessments and Elementary Education Kits are seeing less participation than forecast
 - Strong Community Kits participation resulting in achievement of goal as of October

Offering Highlights

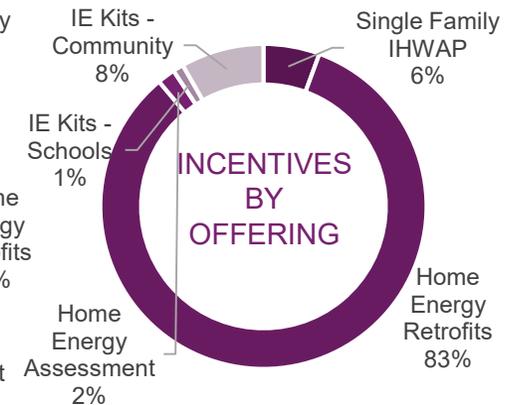

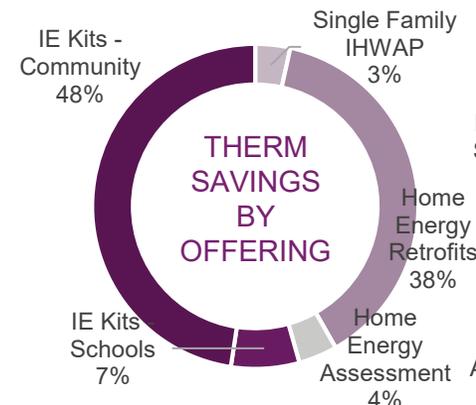

- ✓ IHWAP Single Family is at 201% of the annual savings goal and only at 127% of the budget, showing continued strong interest and operating more cost effectively than forecast
- ✓ 2,179 Elementary Ed and 19,975 Community Kits were distributed in Q3 for a total of 28,588 to date

RESULTS

OVERALL

OFFERING

Income Qualified Multi-Family: Peoples Gas

HIGHLIGHTS

Performance

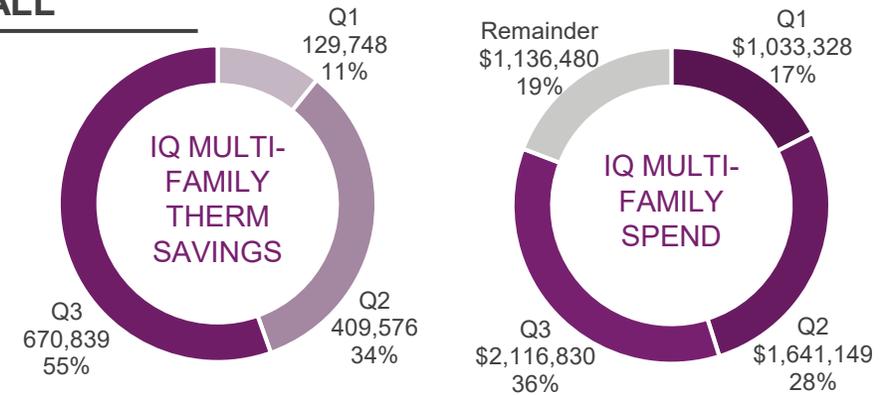

- ✓ Program participation is very strong, but offering mix varies from forecast impacting the overall cost-effectiveness
 - IE Multi-Family is exceeding anticipated participation at 156% of the savings goal and 128% of budget

Offering Highlights

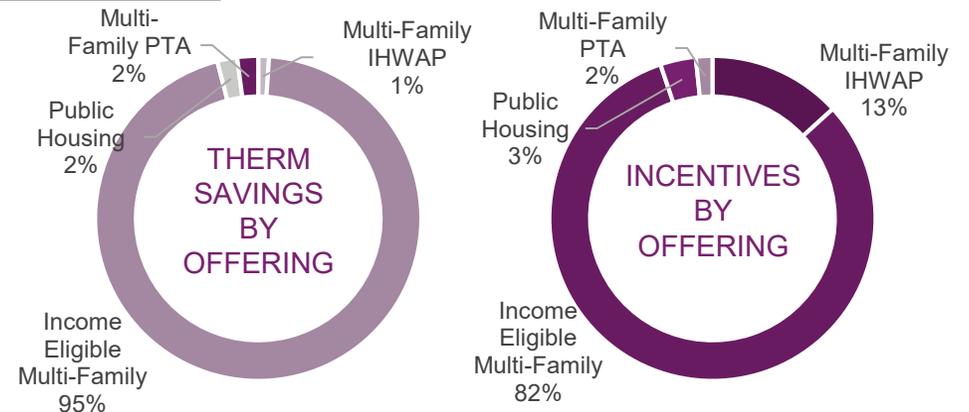

- ✓ Income Eligible Multi-Family Energy Savings: 429 Buildings and 12,714 units participated to date
- ✓ Multi-Family Partner Trade Ally: 11 projects completed to date.
- ✓ Top prescriptive measures by savings: Steam traps and pipe insulation
- ✓ Top direct install measures by savings: Water-saving devices (shower-heads, aerators, etc.)
- ✓ Multi-Family program planned incentive budget distribution: 31% IHWAP, 54% Income Eligible, 12% Public Housing, 3% PTA. Actual spend to-date distribution: 9% IHWAP, 87% Income Eligible, 2% Public Housing, 2% PTA

RESULTS

OVERALL

OFFERING

Income Qualified Single Family: North Shore Gas

HIGHLIGHTS

Performance

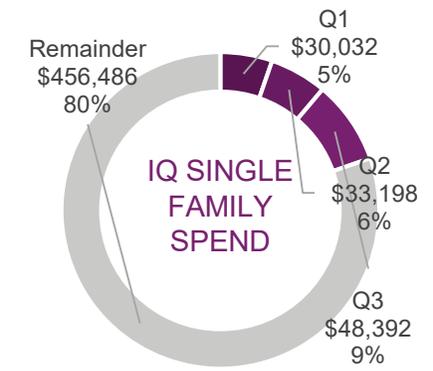

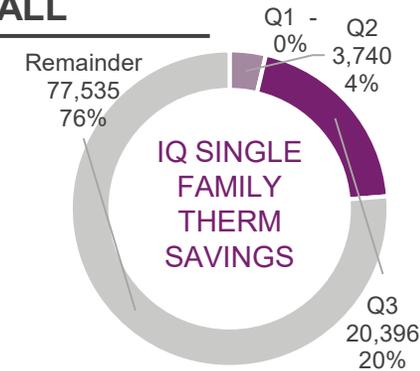

- ✓ Program continues to be slower than forecast but seeing improvements such as: Community Kits participation was realized in Q3, first participation in 2022.
- ✓ Focusing efforts to bring in projects and leverage partners to complete projects in Q4

Offering Highlights

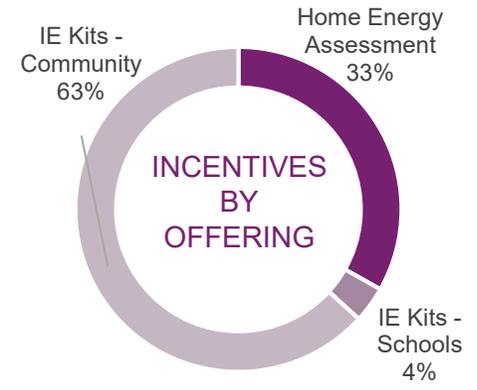

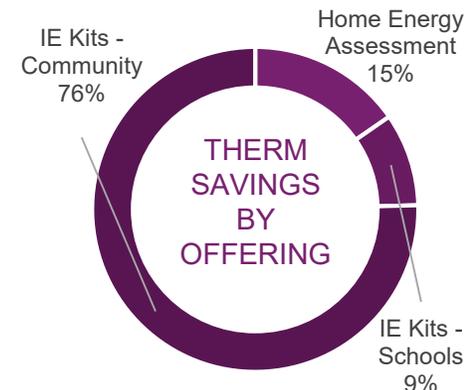

- ✓ New in 2022: Home Energy Savings Retrofits is being offered in North Shore Gas
 - Q2 - Q3 focus has been on helping partners achieve participation and anticipate coming to fruition in Q3 and Q4
- ✓ For the Income Qualified Program, the North Shore Gas budget is much smaller than the Peoples Gas budget, coming in at 6% comparatively. This results in less interest from agencies and Trade Allies and a barrier the team continues to work to resolve
- ✓ 1,114 Community Kits were distributed in Q3 and 151 Elementary Ed Kits to date for a total of 1,291 to date

RESULTS

OVERALL

OFFERING

Income Qualified Multi-Family: North Shore Gas

HIGHLIGHTS

Performance

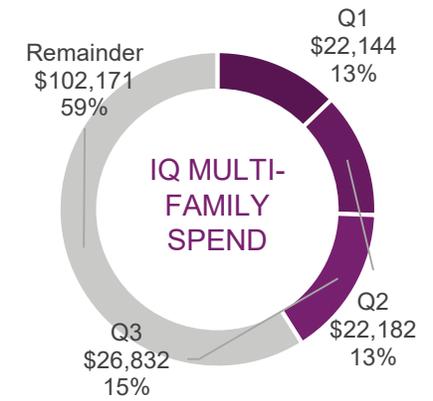

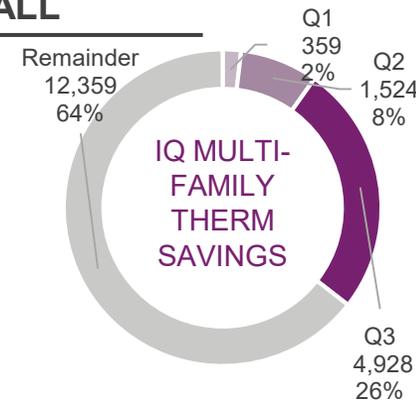

- ✓ Program continues to be slower than forecast. Through the team's focused outreach efforts, saw an increase in projects and pipeline in Q3 with additional projects scheduled for completion in Q4
- ✓ The North Shore Gas Income Qualified Multi-Family offering is very small, with room for a handful of large projects

Offering Highlights

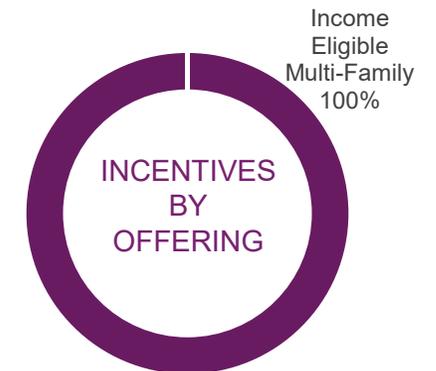

- ✓ Income Eligible Multi-Family Energy Savings
 - 15 Buildings and 523 units participated
 - The top DI measures by quantity: shower timer, kitchen aerator, and programmable thermostat
- ✓ Multi-Family program planned incentive budget distribution: 54% Income Eligible and 49% Public Housing. Actual spend to-date distribution: 100% Income Eligible

RESULTS

OVERALL

OFFERING

Urban Equities Real Estate Consultants, Inc.

Income Eligible Multi-Family Customer Spotlight

Repeat customer continues to improve Multi-Family Properties through participation

- ✓ Highlights:
 - Project Type: Steam traps
 - Building Size: 142 units
 - Rebate Amount: \$78,960
 - Energy Savings: 22,506 therms
- ✓ Robert Szymanski is a multi-year repeat customer, the team is working with him to assess additional buildings and plan projects this year, including Weatherization.

Income Eligible Spotlight: Elementary Education Kits

James Ward Elementary School

- ✓ Was constructed in 1875 and is the oldest public school still in use in Chicago
- ✓ 65 kits were provided to teacher Pauline Yau for her students
- ✓ These kits will help the students' families save 517 therms, 12,621 kWh, and 92,010 gallons of water

PEOPLES GAS®
ENERGY EFFICIENCY PROGRAM

NORTH SHORE GAS®
ENERGY EFFICIENCY PROGRAM

Program Descriptions

Commercial and Industrial

The Commercial and Industrial Program seeks to engage customers using 400,000 therms or more per year, within the utility's territory. The program offers several outreach strategies aimed at reaching top-down and bottom-up stakeholders in delivering program funds to assist in improving the customer's operations and system reliability.

PEOPLES GAS®
ENERGY EFFICIENCY PROGRAM

NORTH SHORE GAS®
ENERGY EFFICIENCY PROGRAM

Business Program

Prescriptive and Custom Rebates

Prescriptive rebates are standard incentive amounts for common energy efficiency measures, typically, with deemed energy savings in the Illinois Technical Resource Manual.

Custom rebates are awarded for the non-standard applications of energy efficiency measures or for projects that do not follow a one-for-one replacement. The review of several operating parameters determines the energy savings.

New Construction Rebates

Rebates are provided towards new building projects or deep renovations, which are designed to exceed regional energy-efficiency code requirements. This is a joint program implemented with partnering utility, ComEd.

Gas Optimization Studies

This comprehensive facility review focuses on gas systems and is like an ASHRAE Level 2 Audit. The study aims to identify custom and prescriptive opportunities. Customers may receive up to \$15,000 for onsite engineering assistance from a 3rd party engineering firm.

Retro-Commissioning

This comprehensive study provides insights into the performance of a facility's existing energy-using systems. To help facilities perform optimally, this program focuses on identifying no- and low-cost energy-saving operational improvements with a simple payback within 18 months. This is a joint program with ComEd, and an approved 3rd party engineering firm conducts the study.

Engineering Studies

These studies focus on large, custom, capital-intensive energy-saving projects. An in-depth implementation study, investment-grade audit or process evaluation is provided focused on one process or project. Customers may receive up to \$15,000 to offset the costs of a 3rd party engineering firm to conduct the study.

Staffing Grant

Customer grant recipients are provided up to \$50,000 to support a full- or part-time employee to oversee the implementation of natural gas efficiency projects that would otherwise not be implemented due to limited staffing.

Strategic Energy Management

Strategic Energy Management engages customers in long-term continuous energy efficiency improvements at their facilities by involving site management, leveraging data, and promoting best practices at the site.

Small and Midsize Business

The Small and Midsize Business Program seeks to engage businesses with an annual gas use below 400,000 therms.

Outreach and rebates are designed to support the unique needs of these businesses in improving their operations and reducing their energy costs.

Business Program

Prescriptive and Custom Rebates

Prescriptive rebates are standard incentive amounts for common energy efficiency measures, typically, with deemed energy savings in the Illinois Technical Resource Manual.

Custom rebates are awarded for the non-standard applications of energy efficiency measures or for projects that do not follow a one-for-one replacement. The review of several operating parameters determines the energy savings.

New Construction Rebates

Rebates are provided towards new building projects or deep renovations, which are designed to exceed regional energy-efficiency code requirements. This is a joint program implemented with partnering utility, ComEd.

Gas Optimization Studies

This comprehensive facility review focuses on gas systems and is like an ASHRAE Level 2 Audit. The study aims to identify custom and prescriptive opportunities. Customers may receive up to \$15,000 for onsite engineering assistance from a 3rd party engineering firm.

Retro-Commissioning

This comprehensive study provides insights into the performance of a facility's existing energy-using systems. To help facilities perform optimally, this program focuses on identifying no- and low-cost energy-saving operational improvements with a simple payback within 18 months. This is a joint program with ComEd, and an approved 3rd party engineering firm conducts the study.

Public Sector

The Public Sector Program seeks to engage Public Sector entities in the utility's territory.

The program offers several outreach initiatives aimed at reaching top-down and bottom-up stakeholders within the Public Sector to facilitate program participation and assist in improving the customer's operations and system reliability.

Business Program

Prescriptive and Custom Rebates

Prescriptive rebates are standard incentive amounts for common energy efficiency measures, typically, with deemed energy savings in the Illinois Technical Resource Manual.

Custom rebates are awarded for the non-standard applications of energy efficiency measures or for projects that do not follow a one-for-one replacement. The review of several operating parameters determines the energy savings.

New Construction Rebates

Rebates are provided towards new building projects or deep renovations, which are designed to exceed regional energy-efficiency code requirements. This is a joint program implemented with partnering utility, ComEd.

Staffing Grant

Customer grant recipients are provided up to \$50,000 to support a full- or part-time employee to oversee the implementation of natural gas efficiency projects that would otherwise not be implemented due to limited staffing.

Strategic Energy Management

Strategic Energy Management engages customers in long-term continuous energy efficiency improvements at their facilities by involving site management, leveraging data and promoting best practices at the site.

Single Family and Multi-Family

Residential single-family offerings provide residential customers access to energy efficiency via two paths—Home Energy Assessment and Home Energy Rebates. The programs are designed to help customers save energy immediately through the direct installation of measures while identifying major upgrades (i.e., furnace or boiler replacement, attic insulation) for future consideration.

Residential Multi-Family Program offers a comprehensive program of assessments, direct install, prescriptive and custom rebates, and partner trade ally projects.

PEOPLES GAS®
ENERGY EFFICIENCY PROGRAM

NORTH SHORE GAS®
ENERGY EFFICIENCY PROGRAM

Residential Program

Home Energy Assessment

Offers energy-saving products installed in homes at no-cost to the customer. The Home Energy Assessment program is a joint program offering provided in partnership with Peoples Gas, North Shore Gas and ComEd. Homeowners can reduce their energy and water use with the installation of products available to owners of single-family homes, two-flats, and individually metered condos and townhomes. Renters are also eligible with permission from their landlords.

Smart Thermostats

A joint utility offering that provides residential customers discounted smart thermostats through the ComEd Marketplace.

Home Energy Rebate

This is a gas-only offering provided in collaboration with local Trade Allies. The program offers rebates on energy-efficient heating, ventilation, air conditioning and water heating equipment and qualifying weatherization projects for residential customers.

Elementary Education

The Elementary Education Program is a free energy efficiency educational program provided in partnership with Peoples Gas, North Shore Gas and ComEd. The program offers 5th grade energy efficiency lesson plans, equipping teachers with activity guides and take-home kits for students and their families to learn how to save energy by installing no-cost energy-saving products in their homes.

Multi-Family Energy Savings

The Multi-Family Energy Savings program is a joint program offering provided in partnership with Peoples Gas, North Shore Gas and ComEd. The program offers free direct installation of energy-saving measures for multi-family buildings.

Prescriptive and Custom Rebates, and Partner Trade Ally (PTA)

A Peoples Gas and North Shore Gas-only offering provided in partnership with vetted Trade Allies. Prescriptive rebates are standard incentive amounts for common types of energy efficiency measures. Custom incentives are awarded for the non-standard technologies or for projects that do not include a one-for-one replacement. This is based on the review of several operating parameters that determine energy savings.

Income Eligible Single Family and Multi-Family

Income Eligible Programs target the underserved income eligible market, providing services designed to make it easy for single-family and multi-family income eligible customers to take advantage of cost-effective energy saving retrofits.

PEOPLES GAS®
ENERGY EFFICIENCY PROGRAM

NORTH SHORE GAS®
ENERGY EFFICIENCY PROGRAM

Income Eligible Program

Illinois Home Weatherization Assistance Program (IHWAP)

Leverage's state and federal funds to supplement incentives from utility programs. The program was designed to help low-income residents save energy and money while increasing the comfort of their homes. With a mission to insulate low-income customers, particularly the elderly, persons with disabilities, families with children, high residential energy users, and households with a high energy burden, to conserve needed energy and to aid those persons least able to afford higher utility costs. Weatherization services are provided to low-income residents through local community action agencies or not for profit agencies.

Home Energy Assessment

Offers energy-saving products installed in homes at no-cost to the customer. The Home Energy Assessment program is a joint program offering provided in partnership with Peoples Gas, North Shore Gas and ComEd. Homeowners can reduce their energy and water use with the installation of products available to owners of single-family homes, two-flats, and individually metered condos and townhomes. Renters are also eligible with permission from their landlords.

Home Energy Savings Retrofits

Offers direct install products and no-cost weatherization services for Income-Eligible Single-Family home customers. It is delivered jointly with ComEd through approved agencies or partners, e.g. Chicago Bungalow Association.

Income Eligible Multi-Family Savings

Building owners receive free technical assistance to identify energy efficiency opportunities and install measures. Expenses are fully covered by the program, from the direct installation of energy efficiency products into tenants' units (light bulbs, aerators, showerheads, etc.), to common area measures, and more extensive measures requiring building owner co-pay. This program is a joint utility program offering.

Public Housing Energy Savings

Offers prescriptive and custom rebates for gas measures in housing owned by Public Housing Authorities. This program is a joint program offering provided in partnership with Peoples Gas, North Shore Gas and ComEd.

Income Eligible Gas Kits

Provides income-qualified customers with a kit of energy efficiency measures to self-install. The Income Eligible Gas Kits are distributed by ground mail to qualified customers vetted by the Low-Income Home Energy Assistance Program (LIHEAP). Provided in partnership with the Peoples Gas, North Shore Gas and ComEd.

Multi-Family Income Eligible Partner Trade Ally

A Peoples Gas and North Shore Gas-only offering, delivered by vetted Partner Trade Allies. Trade Allies are given higher rebate amounts to serve geographically income-eligible customers with retrofit measures.
