Re: Peoples Gas and North Shore Gas 2021 Adjustable Savings Goals Evaluation Review

During January 2021, Guidehouse staff worked with Peoples Gas and North Shore Gas to review the updates to their Adjustable Savings Goals template to reflect the ICC approved version of Illinois TRM Version 9.0. We concluded the updates were implemented accurately.

We note that ICC approved TRM v9.0 measure 5.3.16, Residential Advanced Thermostats, contains an errata that has a minor effect on per unit therm savings for non-direct-installed participants. A correction to the errata was not included in the ICC approval. The 2021 Adjustable Savings Goals for PGL and NSG are based on the currently approved TRM v9.0 containing the errata.
