125,000	85,000	80,000

United States®
**Census
2020**

PAY CUT

JOB MARKET
UNEMPLOYMENT

TOO MANY UNKNOWNNS with $\leq 80\%$ AMI

- Income eligibility at or below 200% of federal poverty guidelines will capture the hardest hit homeowners from the 2020 economic recession and historic unemployment.
- The big unknown will be among homeowners with incomes that exceeds 80% of the Area Median Income today. What income bracket will these families be in between 2022-2025?
- Illinois hasn't had a full census in ten years! What will the 2020 tell us?

THIS REQUEST FOR FLEXIBILITY WILL HAVE
A POSITIVE IMPACT ON UTILITY CUSTOMERS
and IL EE PROGRAMS.

...the greatest number of non-energy efficient or non-weatherized homes in the next 2 – 5 years have household incomes that fall between 200% FPL and 80% AMI?

Flexibility is the key to stability.

— *John Wooden* —
