Christina Pagnusat, Peoples Gas & North Shore Gas

Stacey Paradis, MEEA

Marci Sanders, Resource Innovations

Mark Szczygiel, Nicor Gas

Chris Vaughn, Nicor Gas

Bruce Liu, Nicor Gas

## **Meeting Notes**

### **Opening and Introductions**

*Celia Johnson, SAG Facilitator*

- *Purpose of this meeting:* To discuss the final draft Framework for Market Transformation Savings White Paper and open questions.
  - The last round of comments was due on August 1.
  - The final white paper will be submitted this week to the IL-TRM Administrator for inclusion in the final deliverable for IL-TRM Version 8.0.

- *Next steps:*
  - The Working Group meeting planned on Wednesday, Sept. 18 will be cancelled to allow additional time to develop MT initiatives.
  - The Working Group will meet in-person on Wednesday, Nov. 20 (following the large group SAG meeting on Tuesday, Nov. 19) to discuss preliminary residential and C&I code study results, a status update on MT initiatives, and next steps for MT policy issues.

### **Overview of Comments**

#### *Margie Gardner, Resource Innovations*

- The white paper team received comments from Navigant and ICC Staff. Comments from Navigant were clarifications to the paper; edits were incorporated.
- ICC Staff provided feedback regarding specific protocols: initiative specific protocols required (option A) vs initiative specific protocols required unless determined otherwise (option B).
  - Jennifer Morris: I recommended and support option A.
  - Jim Jerozal: Agrees in principle; would the IL-TRM memorialize the methodology for specific MT protocols in the appendix? There might be 10 or 30 of these over the years. Is this what we are proposing?
  - Margie Gardner: We should be flexible; a template could be developed/used with stakeholders/Working Group participants providing input. A completed template could be included in the IL-TRM appendix, with additional details/agreement living outside the IL-TRM. Option A will be included in the final paper.

### **Next Steps:**

- The final white paper will be sent to the IL-TRM Administrator this week for inclusion in the final IL-TRM Version 8.0 deliverable.
- The next Working Group meeting will be held on Wednesday, Nov. 20 at MEEA.
