Meeting Materials

- Guidehouse Presentation: Proposed NTG Research for ComEd on Income Qualified Lighting
- Guidehouse Presentation: Ongoing Engagement and Persistence in C&I Measures

Excerpted Language from Illinois EE Policy Manual Version 2.0:

7.3 NTG Ratio for Income Eligible Programs

There has been general consensus among Illinois stakeholders that the NTG Ratio for most Income Eligible Programs is not likely to be significantly different from 1.0, particularly where the person making the participation decision is the Low Income Customer. Therefore, Evaluators will not perform NTG research for Income Eligible Programs unless the SAG and Income Qualified Advisory Committees consensus concludes that there is value in performing the NTG research. If Evaluators propose NTG research for Income Eligible Programs, discussions will be held with SAG participants on the value in and methods for performing such research and the timing of the application of such research.

Section 7.3 is in effect January 1, 2020.
