

**Comparison of Incentive Levels  
Among Ameren, ComEd and DCEO Programs  
July 7, 2008 SAG Meeting**

**Incentive Levels that are identical**

HVAC  
Motors  
Refrigeration  
Some Lighting measures

**Incentives that differ**

Some Lighting measures  
Custom

**Additional lighting measures included by Ameren**

CFL reflector flood lamps – \$4  
LED recessed down lamps – \$30  
Ceramic Metal Halide Integral ballast lamps (flood lamps) – \$10  
Pulse Start Metal Halide 750 W – \$75  
Daylight dimming systems  
8-foot High Performance T8 – \$10  
T5 lamps – same \$7-10 as HPT8s

**Additional lighting measures included by DCEO**

LED traffic signals – \$75-90  
LED traffic arrows – \$20-35  
LED pedestrian modules – \$30-35

**Different lighting incentive levels**

Metal Halide – ComEd/DCEO offers incentives of \$20, \$35, \$40 depending on size, while Ameren offers \$40 for all sizes except 750 W  
Permanent Lamp Removal – ComEd/DCEO offers \$6-\$16 depending on size and reflector, while Ameren offers up to \$15 to be determined  
Controls – ComEd/DCEO offers \$0.10 per W controlled, while Ameren offers \$25-\$50 per control depending on the type  
Highbay Fixture Replacement – ComEd/DCEO offers \$0.40/W reduced, while Ameren allows applicant to choose between \$0.40/W and fixed incentive of \$35-50 per fixture  
Fluorescent Fixtures with Reflectors – ComEd/DCEO offers \$7-10, while Ameren adds \$2, for an incentive of \$9-12 if reflectors are included  
LED Exit Signs – incentives are identical, but Ameren would like to revisit level in the future

**Differences among custom programs**

<b>ComEd</b>	<b>Ameren</b>	<b>DCEO</b>
\$0.03-\$0.07/kWh	\$0.05/kWh	\$0.07/kWh

1-7 year payback for \$0.07  
0-5 year payback for \$0.03

1.5-7 year payback

1-7 year payback
