

CUB Proposal - ComEd Demand Response

Carla Colamonici

Laura Goldberg

Proposed Change

- ComEd to run 4 or more AC Cycling events per summer (June 1 - September 30)
- Increase customer participation by 15% through marketing and outreach
- Explore Expansion of DR program to other devices or technology
 - i.e. Smart Thermostats, other Smart Appliances

Positive Impact

- Demand response provides economic value to all customers.
- Any reductions in peak load reduces capacity costs for all
- Increased value for customers who reduce

CUB Proposal - Ameren Demand Response

Carla Colamonic

Laura Goldberg

Ameren: Demand Response

- Ameren should explore its potential of running a DR program
- CUB is proposing a discussion on implementation methods for commencing DR in Ameren territory
