October 2015

# Phase III Portfolio Objectives

1. Meet legislative requirements to implement a portfolio of energy efficiency programs that will produce cost effective savings to the extent possible within the budgetary cap. Cost effectiveness is at the portfolio level and at the 3-year program level.
2. Provide opportunities to participate for all customers (excluding electric generation customers, customers who have opted-out, and customers served through the Department's EE offerings).

# Phase III Portfolio Objectives

3. Build on past experiences and proven technologies, while introducing limited emerging technologies to the market to spur future demand that would aid in market transformation.
4. Is easily scalable and allows for flexible responsiveness to market conditions.
