

**Proposed Policy – Job Reporting
Policy Manual Version 2.0
Submitted by Chris Neme, NRDC**

Policy Issue

Describe the policy / issue to be discussed. Why does this policy require inclusion in the Policy Manual Version 2.0? What unresolved policy issue(s) will be resolved by inclusion in the Policy Manual Version 2.0?

Utilities do not currently report on jobs created, but should given that jobs was one of the key objectives of FEJA.

Proposed Resolution

Describe the proposed resolution for this policy / issue, including any next steps that may be necessary.

Note: After this policy issue is discussed at the Policy Manual Subcommittee, you may be assigned to draft proposed policy language for review by the Subcommittee.

Utilities should estimate and report on jobs created through their efficiency programs. The reports should be annual, at the portfolio level, and account for direct, indirect and induced jobs created. The estimates should be provided by the utilities evaluators based on a common statewide method agreed to by the utilities' evaluators with input from the SAG.

<p>Market Impact</p>	<p><i>Describe who this policy / issue impacts. Does this policy impact all Illinois utilities?</i></p> <p>It affects all IL utilities.</p>
<p>Commission Directive(s) – if applicable</p>	<p><i>Has the Illinois Commerce Commission previously addressed this policy or issue? If so, please provide language and specific citations, including the ICC docket number.</i></p> <p>Not to my knowledge.</p>
<p>Statutory Consistency</p>	<p><i>Have you reviewed your proposed policy against applicable Illinois statutes? Are there any possible conflicts? If so, please provide a citation and explanation.</i></p> <p>I see no conflicts. While it is not a statutory requirement, it is inherently very consistent with the legislative intent.</p>
<p>Background Research (optional)</p>	<p><i>Provide any background research completed in preparing this template, including source references and links, as applicable. How do other jurisdictions address this policy issue? Has ACEEE, NASEO, MEEA or any other national or regional energy efficiency organization addressed this topic? If so, please provide reports and any other relevant sources.</i></p> <p>Have not done this research.</p>
<p>Additional Information</p>	<p><i>Provide additional information, as needed, to assist with understanding the issue and your request to include it in the Policy Manual Version 2.0.</i></p> <p>ComEd and Ameren have committed to working on a joint methodology for estimating jobs and reporting on them starting with the 2018 program year. See Navigant docs on this issue.</p>
