

Weatherization Operations and Training Center

John Pady, Director of Weatherization

January 2020

Background

- CEDA is establishing a Weatherization Program Operations and Training Center in South Holland Illinois.
- The Operations and Training Center build-out costs are being funded through the Department of Commerce and Economic Opportunity (DCEO) utilizing State grant funding.
- The Center will be utilized primarily to train Weatherization Department Staff but will also be made available to the 33 Illinois Community Action Agencies (CAA's), if needed.
- The Center will be available for the State IHWAP Training and Certification Program (TCP) and Contactor training.
- The facility can potentially be utilized to develop a CEDA job training programs.
 - Building science training, trades training, HVAC training, Multifamily training, etc.
